

Team Architect® Suite

What's new

We are introducing several new and enhanced products to the Team Architect® Suite.

New FYI for Teams™ 2nd Edition is an easy-to-use research-based development tool designed to help organizations increase team effectiveness and overall performance.

New Team Architect® Research and Interpretation Guide is a “placemat” that helps facilitate team discussion and focus team and individual action planning.

New eTeam™ Short Report includes high-level survey results and is a condensed version of the eTeam™ Full Report.

The eTeam™ Full Report features two new enhancements—normative data and a narrative comments report.

Highlights of what is new with Team Architect®

FYI for Teams™ 2nd Edition

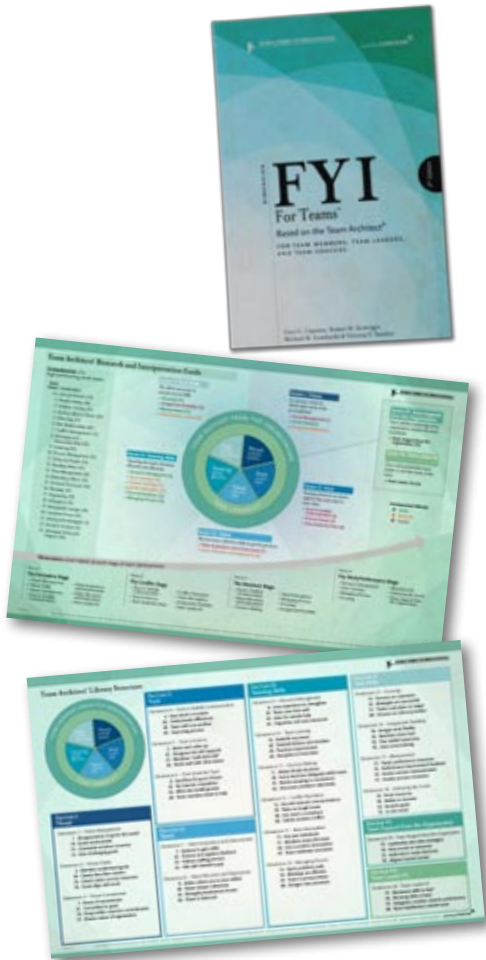

FYI for Teams™ 2nd Edition incorporates new research, practitioner insights, and enhancements based on feedback from hundreds of organizations and individuals who have used the book since the first edition was released in 2001.

FYI for Teams™ 2nd Edition includes new and enhanced content:

- A **Work Team Effectiveness** chapter that explores the importance of teams, introduces the T7 Team Effectiveness model, and offers a comparative review of other well-known team effectiveness models
- **Updated Team Development Remedies** that provide suggestions for actions that teams can take to enhance effectiveness
- A new list of **Suggested Readings** in each chapter, selected from hundreds of research studies, articles, and books—sources that can easily be transferred into your team development plan
- An added focus on **Virtual Teams** in each chapter that addresses the special conditions required for virtual team effectiveness

Team Architect® Research and Interpretation Guide

The new *Team Architect® Research and Interpretation Guide* is for use by two primary groups—team leaders and members motivated to improve team performance, and team coaches and facilitators seeking a valid, practical means to focus team development efforts.

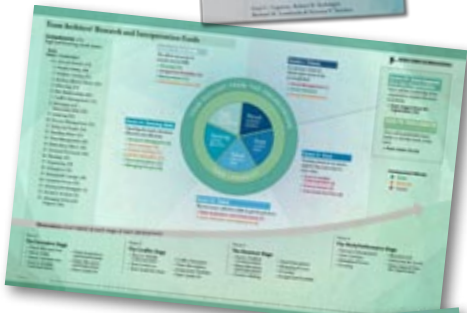

To read a sample chapter or order *FYI for Teams™*, or to order the *Team Architect® Research and Interpretation Guide* visit our Web site at <http://store.lominger.com>

Team Architect® Suite

The new *Team Architect® Research and Interpretation Guide* includes:

- An overview of the T7 Team Effectiveness Model, based on validated research and extensive practice and an outline of the seven factors that comprise the model
- The 20 T7 Team Effectiveness Dimensions, with developmental difficulty and a separate listing by team development stage
- A competency profile for a high-performing team—to better align individual and team development planning

eTeam™ Reports*

The new **Global Survey Center eTeam™ Short Report** is an abbreviated version of the eTeam™ Full Report and is ideal for use in team effectiveness workshops and development planning sessions.

The **eTeam™ Full Report** features two new enhancements—normative data and a narrative comments report. Teams can use normative data to compare their results with those of other teams.

The team effectiveness process

Both *FYI for Teams™* 2nd Edition and the new *Team Architect® Research and Interpretation Guide* are based on the T7 Team Effectiveness Model. In addition to *FYI for Teams™* and the *Team Architect® Research and Interpretation Guide*, *Team Architect®* includes:

- **Team Architect® Sort Card Deck and User's Manual***. Managers use the cards primarily as a diagnostic tool to determine the gap between critical team success factors and current team skill levels.
- **eTeam™ Online Survey***. eTeam™ is a Web-based survey tool used to assess team skills and effectiveness. eTeam™ surveys are administered electronically via our Global Survey Center.
- **Team Whitepaper—Driving Team Effectiveness: A comparative analysis of the Korn/Ferry T7 Model with other popular models**. Visit our product store at <http://store.lominger.com>, shop by item, and click on *FYI for Teams™*.
